EXECUTIVE SUMMARY

Creative, adaptable frontend developer with problem solving skills, I have deep interest in web development borne out by the fact that I love to craft solid and scalable web products with great user experience. I have a keen eye for details without leaving any aesthetic part , I have a high level of self motivation, collaboration and determination to excel in my job and have a successful career, as well as make the company I work for to be more competitive. I'm continually learning necessary skills to develop my ability toward being an advanced front end developer.
